Gold and Securities.

Shortly after the breaking out of the European war Great Britain accumu-lated whatever gold she could collect on this side from the United States in fund at Ottawa, Canada. This fund ras added to from time to time until was added to from time to time until the situation was reversed and Great Britain became the debtor nation. In due time the Ottawa gold was all shipped back to New York. Then to equalize the market for sterling, as far as possible, or to check its deprecia-tion, gold and securities were sent from London here, three shipments, as follows:

follows:
August 11. gold \$19.500.000; securities, \$25,000.000; August 29, gold, \$19.500.000; securities, \$30.000.000, and September 8, gold \$19,500.000 and securities, \$14,000.000. This makes a total of \$58,500.000 gold and \$69,000.000 of securities that have been sent over; the latter being obtained from investors in exchange for new loans or by, purchase by the British government.

Railway Earnings.

A group of southern railroads report their earnings for the fourth week of August show the following deeases as compared with their earnings, gross, for the same week of 1914 Ings, gross, for the same week of 1914: Missouri, Kansas and Texas. \$31,435: Mobile and Ohio, \$51,451; Southern Railway, \$80,512: Texas Pacific, \$8,810. These losses are probably due to the holding back of cotton from the market, although that staple was not moving with any freedom a year ago. Chesapeake and Ohio for the fourth week of August in the same comparison showed a gain of \$175,142 and Louisville and Nashville a gain of \$47,490.

WHEAT DECIDEDLY LOWER ON GOVERNMENT REPORT

Slight Rally After Opening Is Followed by Fresh Decline-Corn and Oats Sag.

CHICAGO, September 9.-Wheat went decidedly lower in price today as a result of selling induced by the bearish nature of the government crop report. Wet weather, however, tended to make the September option relatively firm. Drought complaints from Railway Steel Springs 39 39 39 Argentina received but little atten- Ry. Steel Springs pld. 91 tion. however, and the warmer weather of the latter part of the week was favorable for growth.

"In Oklahoma the crop is reported as being very late, with few bolls opening, and further deterioration is reported from Arkansas."

FOREIGN STOCK MARKETS.

LONDON.

LONDON.

LONDON.

LONDON, September 9.—Shrinking money supplies hardened discount rates today, despite the good bank statement. Cable transfers were irregular. At the start the market was all seliers, and the opening quotation was 4.65. Later the price advanced to 4.67, and then declined a fraction. No reason was given for the erratic movements.

The Russian victory had a good effect on the stock exchange, but there was no increase in business, which again was confined principally to the war loan, home rails, Kaffirs, oil shares and a few American bonds. American securities were quiet and steady, with U. S. Steel receiving the most attention.

NEW YORK, September 9.—There was a further broadening of general demand in the cotton market early to-day, and after opening for general demand in the cotton market early to-day, and after opening for general demand in the cotton market early to-day, and after opening for any and after opening for the movement.

October contracts sold up to 10.09 and Panuary to 10.62, or more than \$7 per bale above the low level of last July. There was realizing enough around these figures to check the advance, but the undertone was very firm and bull-ish confidence appeared to have been strengthened by the improving spot demand, trade buying and yesterday's bullish crop, reports.

Heavy realizing sales were absorbed on very slight reactions with the buying encouraged by buillish reports from southern spot markets and October contracts sold at 10.15, with January to 10.62, or more than \$7 per bale above the low level of last July. There was realizing enough around these figures to check the advance, but the undertone was

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock market. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "git-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability and are exempt from taxation as personal property. We can supply such invest-ments in amounts from \$500 upward. Send for booklet, "Concerning Loans and in-vestments."
